Treasurer
July 2023 - June 2024

Member
October 2022 - June 2023

Professional Experiences

Infodevelopers Pvt. Ltd., Sanepa, Kathmandu November 2024 – Present

Project Overview

CRS: Comprehensive Reconciliation System(CRS) is a financial reconciliation platform that automates transaction tracking and reporting. I handle the frontend development, building responsive, user-friendly interfaces with dynamic tables, forms, and real-time data integration, ensuring seamless interaction with backend APIs and an intuitive user experience (mostly use by RBB, Laxmi sunrise).

SMIS: Smart Management Information System is an employee evaluation platform that streamlines performance tracking and assessment processes. I handle the frontend development, building responsive interfaces, evaluation modules, dashboards, and seamless API integrations for an intuitive user experience.
